The 9000 replaces the 9000J's galvanic with a robust lymphatic drainage with pulsing air flow, or "patter". This well designed feature provides drainage during "on" suction while comfortably gliding along skin during "off" suction to reduce drag on the skin, simulating manual pressure to a great extent.

- A steamer arm that swings right, left and forward with a rotating nozzle.
- Adjustable steam flow that is generated in under 5 minutes.
- State-of-the-art safety features to prevent the steamer from spurting hot water.
- Quick draining valve for easy maintenance.

The 9000 is very generous with the number of accessories that come with the unit. Includes a 2 Year Kosmet Limited Warranty.

Ionto Skin Regulator (Lymph Drainage)

Softening of the connective tissues reduces wrinkles while the deep massage of the skin produces a soft, smooth and fresh appearance. The Skin-Regulator helps reduce orange peel skin by contributing to the activation and normalization of the metabolism, blood circulation and lymph drainage. Disturbances in these supply mechanisms and hardening of the connective tissues can lead to illness, tense muscles and formation of wrinkles. Healthy connective tissue is characterized by a balanced and constant flow to the smallest parts of the body via bloodstream, lymph, cells, etc.

This device creates an easily adjustable, heavy pulsating electrostatic field under the esthetician's hands which produces a vibrating and pumping effect that reaches the deepest layers of the skin. After a short period of time, the client feels a pleasant and relaxing effect. Lymph drainage provided by the pulsating electrostatic field is more effective than manual treatment. Includes a 2 Year Kosmet Limited Warranty.

Code: Ei820 (Skin Regulator) **\$2,175.00** **Sale: \$1,090.00** **Dimensions:** 3 1/2"H x 7 1/2"W x 7 1/2"D

- White Fluorescence: Thick corneum layer.

Kosmet Tip // Analyzer Bulbs: Certified vs. Standard

Though U.V. light has a frequency range of 10nm-400nm, only the light from 315nm-400nm is considered safe for long term exposure. **CERTIFIED BULBS:** Protects the eyes of you and your client by guaranteeing that no light from the unsafe range of 10nm-315nm is being generated. **STANDARD BULBS:** These bulbs may be safe for prolonged exposure as well, but no testing has been done to guarantee this.

S-2001A (SKIN ANALYZER)

Kosmet Tip // Skin Analyzers: Increase Your Sales!

With traditional woods lamps, only the esthetician is able to view the skin. Skin analyzers provide a built in mirror which shows the client what you are seeing while you explain the state of their skin. This visual aid builds your client's trust and helps close sales of by improving their understanding of why a treatment or product line is being recommended!

SPECTRA COLOR CREAM HAIR DYE - TINTOCIL

Tintocil Cream does not cover the hair but penetrates, leaving it bright and soft. Made in Italy, this quality dye gives permanent colorations which last for weeks. Tintocil creams can be mixed to achieve color variations such as Dark Blonde: Mix 4 Parts Blond with 1 Part Brown. Increasing application time will help achieve a darker color. For less intense colors shorten application time, such as Light Blond: Reduce application time by 3/5 minutes.
